

Tailwheel Endorsements

There is no minimum amount of flight and ground training required for tailwheel endorsements. Most people average around 10 Hrs before they start getting comfortable. The required training for the tailwheel endorsement can be found in FAR 61.31(i) it consists of the following:

- Normal takeoffs & landings
- Crosswind takeoffs & landings
- Wheel landings
- Go-arounds

Additionally, will also cover:

- Grass & paved runway operations
- High Speed Taxiing
- Taxiing in variable wind conditions
- Forward slips to landings

The Tailwheel course will be 10Hrs of flight training along with a minimum of 1 Hr of ground training. The Tailwheel course will start off with a flat rate of \$1700 and if additional training is needed it will be an hourly rate of \$170/Hr wet.
